ICE140-S/ICE145-S

3M™ Water Filtration Products Models ICE140-S and ICE145-S single cartridge water filtration systems help provide consistent high quality water for commercial ice by reducing the effects of sediment, chlorine taste and odor and scale at flow rates up to 2.1 gpm (7.9 lpm). Built-in scale inhibition reduces the ability of calcium and magnesium to precipitate on the evaporator plates as hard scale.

- **ICE140-S** combines chlorine taste and odor reduction with cyst, bacteria¹ and sediment reduction, while reducing the effects of chlorine corrosion and scale for up to 25,000 gallons (94,635 liters).
- **ICE145-S** combines chlorine taste and odor reduction with sediment reduction from higher turbidity water, while reducing the effects of chlorine corrosion and scale for up to 25,000 gallons (94,635 liters).

PRODUCT BENEFITS

- Effectively reduces sediment and chlorine taste and odor for better equipment protection and clearer, great tasting ice.
- Revolutionary **Integrated Membrane Pre-Activated Carbon Technology** (“**IMPACT**”) dual-zone media cartridge construction combines a membrane in series with premium activated carbon to provide superior throughput and cartridge life.
- Certified by NSF to Standard 53 for cyst reduction (HF40-S replacement cartridge).
- Built-in bacteria inhibitor intended to reduce fouling of media (HF40-S replacement cartridge).
- NSF Standard 42 and/or FDA CFR-21 compliant materials.
- Reduction of up to 99.99% of common water-borne heterotrophic bacteria by membrane filtration as tested by CUNO (HF40-S replacement cartridge).
- Valve-in-head design simultaneously shuts off and vents water, allowing for simple and virtually trouble-free cartridge change-outs without the need to shut off the upstream feed water.
- Built-in scale inhibitor reduces lime scale build-up on evaporator plates as tested by CUNO.
- Sanitary Quick Change (SQC) encapsulated cartridge design allows for fast and easy cartridge change-outs with a 1/4 turn.
- 3/8” FNPT horizontal inlet and outlet ports allow direct or easily adaptable connections to existing plumbing lines.

PRODUCT SPECIFICATIONS

Model Number	Part Number	Reduction Claims	Nominal Micron Rating	Capacity	Service Flow Rate	Application	Replacement Cartridge	Sizing
ICE140-S	56162-03	Cyst, Bacteria ¹ , Sediment, Chlorine Taste and Odor, Scale ²	0.2 ²	25,000 gallons (94,635 liters)	2.1 gpm (7.9 lpm)	Most Standard Water	HF40-S: 56133-05	Low Flow Cubers to 1,000 lbs. (454 kg) High Flow Cubers to 600 lbs. (272 kg) Flakers to 1,800 lbs. (816 kg)
ICE145-S	56162-04	Sediment, Chlorine Taste and Odor, Scale ²	3.0	25,000 gallons (94,635 liters)	2.1 gpm (7.9 lpm)	Higher Turbidity Water	HF45-S: 56133-09	Low Flow Cubers to 1,000 lbs. (454 kg) High Flow Cubers to 600 lbs. (272 kg) Flakers to 1,800 lbs. (816 kg)

¹As tested with either E.Coli ATCC (11229) or Pseudomonas (B) diminuta ATCC (19146)

²Tested and verified by manufacturer's laboratory

PHYSICAL SPECIFICATIONS

⚠ WARNING: To reduce the risk associated with the ingestion of contaminants:

- Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected water that may contain filterable cysts. EPA Establishment #070595-CT-001

CUNO Incorporated recommends regularly scheduled maintenance and replacement of the filter cartridge(s) in order for the product to perform as advertised/sold. CUNO shall not be liable for system failures due to improper maintenance.

LIMITED WARRANTY

CUNO Incorporated warrants this Product to be free from defects in material and workmanship for five (5) years from the date of purchase. This warranty does not cover failures resulting from abuse, misuse, alteration or damage not caused by CUNO or failure to follow installation and use instructions. If the Product is defective CUNO will replace the Product or refund your Product purchase price. CUNO will not be liable for any indirect, special, incidental, or consequential damages arising from the use of this Product. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply to you. To obtain warranty service, mail your request to Warranty Claims, CUNO Incorporated, 400 Research Parkway, Meriden, CT 06450. Proof of purchase (original sales receipt) must accompany the warranty claim, along with a complete description of the Product, model number and alleged defect. This warranty gives you specific legal rights and you may have other rights which vary from state to state, or country to country.

- System includes a head assembly with integral mounting bracket, pressure gauge and a single cartridge filter.
- Inlet and outlet plumbing connections are 3/8" FNPT.
- System incorporates an internal automatic 1/4 turn shut-off valve.
- Filter cartridges are o-ring seal type.
- System maximum operating pressure of 125 psi (862 kPa) and operating temperature of 100°F (37.8°C).
- Recommended service flow rate is up to 2.1 gpm (7.9 lpm).
- Filter cartridges incorporate a bacteriostatic carbon block filtration medium (HF40-S replacement cartridge) and scale inhibitor.
- System materials are NSF Standard 42 and/or FDA CFR-21 compliant.
- Cartridges are sanitary in design, requiring no contact with the filter media during cartridge change-out.
- Filter cartridges require no pre-activation.
- NSF Performance Data Sheet (PDS) is included.
- Shipping weight: 8.9 lbs. (4.0 kg) per case.
- Operating weight: 6 lbs. (2.7 kg) per case.
- Case quantity: 2.

IMPORTANT: INSTALLATION TIPS

These installation tips are for informational purposes only and are not intended to be used as actual installation instructions. CAUTION: To reduce the risk associated with property damage due to water leakage:

- **Read and follow** Use Instructions before installation and use of this system.
- Installation and use **MUST** comply with all state and local plumbing codes.
- **Protect from freezing**, remove filter cartridge when temperatures are expected to drop below 40°F (4.4°C).
- **Do not install on hot water supply lines.** The maximum operating water temperature of this filter system is 100°F (37.8°C).
- **Do not install** if water pressure exceeds 125 psi (862 kPa). If your water pressure exceeds 80 psi (552 kPa), you must install a pressure limiting valve. Contact a plumbing professional if you are uncertain how to check your water pressure.
- **Do not install** where water hammer conditions may occur. If water hammer conditions exist you must install a water hammer arrester. Contact a plumbing professional if you are uncertain how to check for this condition.
- The disposable filter cartridge **MUST** be replaced every 12 months, at the rated capacity or if a noticeable reduction in flow rate occurs.
