

COMBUSTION TECHNOLOGIES

Applications

Large Stationary Engines

Sump Capacity

50 to 200 gallons - Larger Sumps Available

Specifications

Overall Dimensions F-3000

42" Height
15.50" Width

Max. Operating Pressure 125 PSI
Flow Rate* 5.0 GPM
Housing Capacity 20 gallons
3/4" NPT inlet and out ports
Element Removal Clearance 21.00"

Housing Part Numbers

F3000 Powder Baked Black

Element Part Numbers

IN233061-2

NOTE: Viscosity, operating temperature, and generated contamination will affect sizing and flow rates of filtration equipment.
