

# COMBUSTION TECHNOLOGIES

## Applications

Engines  
Mobile & Stationary Equipment

## Sump Capacity

1 to 5 Gallons

## Specifications

Overall Dimensions F-500

14.250" Height

11.250" Width

10.675" Depth

Max. Operating Pressure 125 PSI

Flow Rate\* 1.0 GPM

Housing Capacity 3 gallons

1/2" NPT inlet and out ports

Element Removal Clearance 10.25"

## Housing Part Numbers

HP0512 Powder Baked Black

## Element Part Numbers

HY-2501 - Diesel Fuel/ Hydraulic

DE-2511 - Engine Oil

## Available Accessories

Lube T-Handle #0593

T-Nut Adapter #100098TN

Pressure Gauge #FG01001

Replacement O'ring #44600

Lid Cover #100099

**NOTE:** Viscosity, operating temperature, and generated contamination will affect sizing and flow rates of filtration equipment.

\* Flow Rate Established Using SAE 30 wt Oil @ 160F
