Type AR Filter Holding Frame

Koch Type AR Filter Holding Frame

Type AR Filter Holding Frames are designed for simple and cost-effective construction of filter banks. 16 gauge galvanized steel components insure years of reliable usage and make each Type AR Frame virtually indestructible.

Each frame is equipped with polyurethane gaskets to provide protection against air-bypass. Pre-punched holes on the sides of the frame make filter bank construction easy and trouble-free.
Because it is built with the end user in mind, the Koch Type AR Filter Holding Frame is the ultimate design for straight filter-bank assembly.

Type CA Clips

CA-01 (1")

**CA-02 (2")**

CA-03 (3")

CA-04 (4")

Each Type AR Filter Holding Frame is furnished with Type CA Clips. These multi-purpose spring clips make the AR Frame the most versatile holding frame available.

Type CA Clips are designed to hold many different filter styles and are available in several lengths. See Table II on the reverse side for further data on Type CA Clips and their recommended applications.
