IAQ³

The Air Knight® IPG* is a key part of the IAQ³ platform that integrates three levels of air quality products, each increasing the overall air quality of the space. The result is a dynamic air quality management strategy that provides a comprehensive IAQ solution, custom-tailored to specific needs.

- FILTRATION**
Uses ion technology to improve the performance of your systems existing air filter.
- PURIFICATION**
Next generation purification inactivates bacteria, virus, and reduces odors.¹
- UV INACTIVATION**
Sanitize surfaces in your HVAC system and reduces contaminants at the source where the UV light shines. Even when the system is off.

THE AIR KNIGHT® IPG® AIR PURIFICATION SYSTEM UTILIZES DUAL TECHNOLOGIES TO REDUCE DUST, DANDER, ODORS, VOCs, SMOKE, AND VIRUS.¹

IPG®, now improved with carbon fiber ionization brushes for increased ion production, is a unique bi-polar ionization system providing you air with both positive and negative ions that encourages airborne particles to gather together, making your existing air filter system more efficient.

In addition to the IPG® feature, PX5 UV provides germicidal dose of UV-C where the light shines. Quality construction and high air flow design ensures the IPG® can handle the air volume from today's high SEER and commercial HVAC system.
